TMES Corporation Celebrates Its 60th Anniversary

TMES Corporation celebrated its 60th anniversary on August 13, 2026.

This milestone would not have been possible without the continued support and trust of our customers, business partners, local communities, and all other stakeholders who have been part of our journey. We would like to express our deepest gratitude to everyone who has supported us over the years.

Since our founding in 1966, TMES has supported safe and reliable social infrastructure through the maintenance and management of building and facility systems. Throughout decades of change in both society and the built environment, we have continued to build on the technical expertise and practical experience cultivated in the field, helping to ensure the stable operation of our customers' facilities and provide safe and comfortable environments.

Today, our business encompasses three core domains: Maintenance, Engineering, and Solutions. Going beyond conventional maintenance services, we provide comprehensive facility management solutions that deliver value throughout the entire lifecycle of buildings. As our customers face increasingly complex challenges, including energy efficiency, decarbonization, advancing building technologies, and workforce shortages, we believe that contributing to solutions for these issues is one of TMES' s most important responsibilities.

As a member of the Takasago Thermal Engineering Group, we are committed to contributing to the Group Purpose, "With our revolutionary environmental innovations, we activate the Earth's future," and to realizing the Group vision, "Environment-Creator™."

Guided by our corporate philosophy, "Sincerely engaging with people and the planet to create a prosperous, safe, and secure future," we strive to become "an environmental solutions partner that co-creates sustainable value." Working together with our customers and society, we will continue creating new value and contributing to a more sustainable future.

Our 60th anniversary is both an opportunity to reflect on our journey and a new starting point for the future. Building on the technology and trust we have cultivated over the years, we will embrace change and continue creating new value together with our customers and society.

We sincerely appreciate your continued support and patronage.

Message on the Occasion of TMES Corporation' s 60th Anniversary

Takasago Thermal Engineering Co., Ltd.

Message from Kazuhito Kojima, President and Representative Director

To all Environment-Creators™,

Congratulations on TMES Corporation' s 60th anniversary.

I would like to express my deepest respect for all of you who have continued to support our customers' business activities and social infrastructure over the years.

As members of the Takasago Thermal Engineering Group, let us continue taking on challenges together to help solve the issues facing our customers and society!

Takasago Thermal Engineering Co., Ltd.
